

I Just Wanna Go Huntin

Ted Nugent

I just wanna go hunting baby

I was always different
Nobody understood
I didn't play "Follow The Leader"
'Cause I was always in the woods
They hadn't invented peer pressure yet
It seems I stood alone
But my daddy had a vision
Love, family and a home

Yeah but the punks used to laugh at me
They said "How can you rock and not get high?"
But I just stood my ground
And I watched those [?] fall and die

'Cause I just wanna go hunting
It makes me feel so good
I just wanna go hunting
Try to find me in the woods

Things're getting a little crazy
In this day and age
The concrete jungle warfare
Has got everybody in a rage

I sure like a rock and danger
And I crave my rock'n'roll
But when I get my limit
I know where to go

I like to jump in the four-wheel drive
Load up the dogs and the family
'Cause I've got to feel alive
With the wildlife where I can breathe

And I just wanna go hunting
It makes me feel so good
I just wanna go hunting
Try to find me in the woods

Yeah I'm slipping away
Looking for a new sunrise
I'm feeling okay
'Cause it's times like this that make me healthy and wise

Oh, look out

Yeah, God told me in the bible
He said "Go ahead and whack 'em, Ted"
So I take my kids hunting
So I don't have to hunt for my kids

I see 'em jump in the four-wheel drive
Load up the dogs and the family
And I got to feel alive
With the wildlife where I can breathe

I just wanna go hunting
It makes me feel so good
I just wanna go hunting
Try to find me in the woods
I just wanna go hunting
It'll make that feeling last
And if you don't like my hunting
Then you can kiss my ass

I'm slipping away
I'm slipping away
I'm [?] my body weight
I got to get away everyday
I got to [?] my body weight
Cause I'm slipping away
I got the slipping way

Yeah yeah yeah
