## Just What the Doctor Ordered

**Ted Nugent** 

I got my guitar when I was ten years old Found a love in rock an' roll Now I'm on the verge of a nervous breakdown I'm gonna give my body and soul

It's so crazy But you know that I like it I've found a cure for my body and soul I've got me an overdose of rock and roll

I jammed everyday I jammed every night I practiced till I knew all the licks Now I'm on the verge of a nervous breakdown I don't know the meaning of quit

It's so crazy Yes you know, but I like it It crushes my head, my brain is on the border But this is what the doctor ordered Yes, it is

I jammed everyday I jammed every night I practiced till I knew all the licks Now I'm on the verge of a nervous breakdown I don't know the meaning of quit

It's so crazy But I like it It crushes my head, my brain is on the border But this is what the doctor ordered

This is what the doctor ordered This is what the doctor ordered
