

Take Me Away

Ted Nugent

Same old situation
Same old song and dance
I've got a hazardous occupation
I'm ready to take a chance

I'm ready for adventure
And danger in the night
As soon as she said those magic words
I knew the time was right

She said, take me
Take me away
Take me
Take me away

It's hard to keep a perspective
I get so damn bored
It's just a vicious cycle
I can't take no more

I said, take me
Take me away
Take me
Take me away
Come on and take me
Take me away

Take me
Take me away
Take me
Take me away
Come on and take me
Take me away
I said, take me
Take me away
Why don't you take me
Take me away
Come on and take me
Take me away
