

When Your Body Talks

Ted Nugent

She comes slipping out of darkness
She's got danger in her eyes
Looking much too sexy, girl
My love is on the rise
I'm shattered by your movement babe
I love the way you walk
I love the way it feels
When your body talks

I love how it feels
When your body talks
I love how it feels
When your body talks
I can't help but listen baby
When your body talks
I love how it feels
When your body talks

My passion is on fire
My hands out of control
I give her all my energy
She just can't say no
She's ready for the night time
Flyin' like the hawk
I just have to listen babe
When your body talks

I love how it feels
When your body talks
I love how it feels
When your body talks
I can't help but listen baby
When your body talks
I love how it feels
When your body talks

I love how it feels
When your body talks
I can't help but listen baby
When your body talks
I love how it feels
When your body talks
I can't help but listen baby
When your body talks
I love how it feels
When your body talks
I can't help but listen baby
When your body talks
I love how it feels
When your body talks
I can't help but listen babe
Listen babe
