

## Activate

Tedashii

Please don't make me activate, yeah  
I just came to celebrate, they want me to detonate  
Watch me hit accelerate (Woo)  
No time for the complicate, I'm just tryna elevate  
Please don't make me activate (Woo)  
I just came to celebrate, they want me to detonate  
Watch me hit accelerate (Woo)  
No time for the complicate, I'm just tryna elevate  
Please don't make me

They don't call me (Nope), yet they call me crazy, but I  
Run it crazy (Uh) [?] and I  
Keep it wavy, Southside like the pride over, I  
Ain't cool with labels, unless it's the one I rock on  
He comin' back, I told 'em that, I told 'em how to get it  
I know that's facts, no holdin' back, it's your life, I can't live it  
Now peak up, now peak up, we promised [?] would get up  
Mind over matter, it ain't mind no matter, I can't switch up (Ooh)  
Ooh, way up, my shot no lay up (Yeah)  
They play tough  
[?] get yo' weight up (Woo)  
Can't play us, me with the squad, we stay up (Yeah)  
They hate us, but still be tryna locate us  
Tryna get closer like it's a close-up  
Treat it like poker then toss out the jokers  
Like [?]  
Please believe I-know I'm 'bout to [?]  
Don't make me [?] (Don't)  
Please don't you wake up this giant, but still they keep trying

Please don't make me activate, yeah

Lately I've been a bit righteous, yeah  
Takin' off, boy, like, watch me pilot, ayy  
I'm 'bout to activate  
Most of these rappers is whack, let me demonstrate  
I be like 188, still I elevate  
Bodied the moment I came with the pen, I make  
Hits with fashion, call it a classic  
Boxin' me in, now treated like Cassius  
Humble in person, on record I'm ratchet  
Drive me so crazy, can nobody match it  
Ain't no comparin', I'm in my own bracket  
Light of the world, I'm numbin' the traction  
Life on the microphone, couldn't imagine  
Hop out the whip and go speak to the masses  
Watch me elevate (Elevate, elevate, elevate, elevate), yeah  
Runnin' laps, I wreck the pace

Pop a bottle, celebrate  
We got that dub like (Ayy)  
Westside, watch me throw it up (Throw it up)  
In my spaceship goin' up  
This here be my blow up (Skrt!)

Please don't make me activate, yeah  
I just came to celebrate, they want me to detonate  
Watch me hit accelerate (Woo)  
No time for the complicate, I'm just tryna elevate
