

Back Home For Christmas

Tedashii

Close my eyes, somehow a year slip by
I haven't seen you in so long and I don't know why
I'm sitting on this flight back home and the memories all came
rushing in
So let's get everyone together once again, yeah

We'll hang those stockings on your mantel, put the wreath up on
your door
Fill me in on all these stories that I somehow missed before
And I'm feeling like a kid again, I even wished for snow
The magic of this time of year is that we always find our way b
ack home for Christmas
Yeah, yeah, yeah, yeah, yeah, yeah
Oh, yeah

If I could turn back time, I would rewind to the holidays
I see the snow outside, oh, but it's warm by the fireplace
When I see home, I can't wait
Christmas lights shine on my face

We'll hang those stockings on your mantel, put the wreath up on
your door
Fill me in on all these stories that I somehow missed before
And I'm feeling like a kid again, I even wished for snow
The magic of this time of year is that we always find our way b
ack home for Christmas
Yeah, yeah, right back home for Christmas
I know each year I'll see you here for Christmas
Yeah, yeah, yeah, yeah, yeah
For Christmas, for Christmas

And these plans won't change, but we will
It's like I'm meet you every year
On this winding road, one thing's clear
The magic of this time of year, is that we always
Find our way back home for Christmas
Yeah, yeah, yeah, yeah, yeah
Right back home for Christmas
I know each year I'll see you here for Christmas
Right back home for Christmas
Yeah, yeah
Back home for Christmas
