

# Dark Days, Darker Nights

Tedashii

[Verse 1 - Tedashii:]

My pain is real  
Don't pretend you can feel  
I appreciate your prayers, but I'm keeping it real  
Kitchen and skitching I'm gripping the steel  
Hand in my pain, and let's keep it concealed  
Mad at the world, and I'm ready to kill  
Hollering pain, and they letting me live  
Making me sick, and they calling me ill  
The mood that I'm in, I die to the fear  
No lie, testify  
Left hand on the Bible, right hand to the sky  
My days be long, nights seem long  
Calling on help and nobody is home  
All by myself, and I feel so alone  
Cold world, yeah, and I know it's for show  
Worst day of my life, and it's just getting badder  
Asking Him why and looking for answers

[Hook - Britt Nicole:]

Dark days and darker nights  
Heart break dreams from this heartened mind  
Don't understand it  
Can't understand it  
(2x)

[Verse 2 - Tedashii:]

Bombay and that Alizé  
Purple Sprite with that Grand Marnier  
Sip, slurp, sizzurp, hurl  
Do it again the same next day  
Hey, marijuana, ganja  
Blown crop dust like I was a farmer  
Mary Jane that dame I called her  
Invested my home and living with roaches  
Womanizing, traumatizing  
The reason that made me despise me  
My Savior's bringing them gifts  
Presented as wise men trying to entice them  
Liars all wired up  
By the men before but I was the first  
But this is no race or wretch  
A mess and I'm trying to find help  
Looking at pictures it making me sadder  
Feeling so helpless it making me madder  
Worst day of my life, and it's just getting badder  
Asking Him why and looking for answers  
Wondering if He ever gon come back  
If He is then man can you pick up the slack  
Cause this place that I'm in I may never come back  
Feeling so lost and don't know where I'm at

[Hook - Britt Nicole:]

Dark days and darker nights  
Heart break dreams from this heartened mind  
Don't understand it  
Can't understand it

(2x)

[Verse 3 - Tedashii:]

Uh, I pick up on a sign quick  
I don't know what I could find if  
Someone could get me out the mess I'm in  
Brain loss, gone and all it's sin  
I know I'm hurting from my past pain  
And people tell me I goin insane  
I think they lying so I keep pressing  
The way things I used to do, trying to impress em'  
This pain, I gotta let it go

[Hook - Britt Nicole:]

Dark days and darker nights  
Heart break dreams from this heartened mind  
Don't understand it  
Can't understand it
