

DEMISE

Tedashii

I don't fear my demise
Imma live in the skies
I don't live for this life
I don't fear with you guys
I do gigs in Dubai
That's what [?] 'fore he died, yeah
You be woofin on the side
But be scared to come outside
I don't live how you reside
Never reel from a fight
Shoot that reel, word to Spike
I do reels and go live

Let me tell you how it happened
They was smilin in my face and then attack me
Folk be cappin', they some studio assassin
Got that fire, I stay lit, I got new matches, yeah
Way they talkin, I'm despised, but can't look me in my eyes
Still these liars, I take dive
Man, they salty like some fries
Got no time for choosin sides
All accord when I dine
How you got over offenses
I move on, ignore they ignorance
I know [?] ain't never [?]
Everybody look for tissues
Tryin to live for God so please don't tempt me

I don't fear my demise
Imma live in the skies
I don't live for this life
I don't fear with you guys
I do gigs in Dubai
That's what [?] 'fore he died, yeah

You be woofin on the side
But be scared to come outside
I don't live how you reside
Never reel from a fight
Shoot that reel, word to Spike
I do reels and go live

Uh, you ain't fire today
You want to try it, I can ignite it and go either way, yeah
Talking to God, sittin' out by the bay, yeah
Takin my time, seekin a brighter day, yeah
You don't wanna die today, the way I'm feelin I gotta pray
You don't wanna die today, off my meds, I'm out my brain
It's too risky, play around and it ain't pretty
Got no pity for liars who be actin' iffy

Switchin' it
Smile in my face, throwin dirt on my name, you [?] it
Count work man with the beat folk, yeah I'm killin it
Mad about the game homeboy, oh well I'm still in it
Livin' out of touch, so you doin' too much, I ain't feelin it
You ain't with me, then you might just be against me

Hit the city, trust by God and faith and get me, ooh
Inside, outside, clean in that Bronco
