

Emmanuel

Tedashii

O come, O come, Emmanuel
And ransom captive Israel
That mourns in lonely exile here
Until the Son of God appear

Yeah, yeah yeah
It's right there on the money that in God we trust
Momma said "forget that money cause if God wit us"
I could go beat the block
Like I don't need the block
I could go bleed the block
Or, I could lead the block

Every winter, bring the heat 'cause it was cold
I didn't wanna do it, we was all alone
Every Christmas, Santa missed us, we was broke
Now I get this, gotta get this on my own
Every holiday was not a holiday
Every holiday nobody got a break
Momma workin' just to fight to find her faith
Every hurt I felt it fell down on my face

Until the son of God appear

Every Christmas, pray that God will work the reaper
I gotta kill it for my people, I know
Livin' like we all just hit the lotto
And is it just like me
Yeah, you made it through
God is with us, that's the truth, I'm the proof
He made me new, yeah
I be out watchin'
When while I'm shoppin'
Wish I could cop it
Regardless, he got me
God is still with us, I promise, there's no other option

It's right there on the money that in God we trust
Momma said "forget that money cause if God wit us"
I could go beat the block
Like I don't need the block
I could go bleed the block
Or, I could lead the block
It's right there on the money that in God we trust
Momma said "forget that money cause if God wit us"
I could go beat the block
Like I don't need the block
I could go bleed the block
Or, I could lead the block

O come, O come, Emmanuel...
