

Full Effect

Tedashii

(Sak Pase)

Oh yeah

Our city on the hill, I'm like the beacon
For the culture, watch me go up e'ry weekend
We in full effect, we in full effect, yeah (Oh yeah)
We in full effect, we in full effect, yeah (We her)
Get the ball, shoot the shot, hit the swish (Swish, swish)
And God with me, you know I don't ever miss (Miss, miss)
We in full effect, we in full effect, yeah (Yeah, yeah)
We in full effect, we in full effect, yeah

It's been a minute, had to hit you with the thrills (Thrills)
Take your weight up, stay up like the city on a hill (Hill)
I live with God, that altitude can give some folk the chills (Chills)
So many people jumping ship, I guess that's overkill, uh (Kill)
Wicked where I kick it, tell her stop, steady roll up
Way I'm livin' they'll lift your car like a tow truck
DM like it's tinted off the lot like a Rover
Give him that business off top like promoters
I laid it, made it plain just like it's takin' off
See everything ain't been the same now since it's taken off
People change, that's when your chains, they start to break and all
And your changes start to change and you ain't break 'em off, man, what?

Our city on the hill, I'm like the beacon
For the culture, watch me go up e'ry weekend
We in full effect, we in full effect, yeah (Oh yeah)
We in full effect, we in full effect, yeah (We her)
Get the ball, shoot the shot, hit the swish (Swish, swish)
And God with me, you know I don't ever miss (Miss, miss)
We in full effect, we in full effect, yeah (Yeah, yeah)
We in full effect, we in full effect, yeah

Ayy, it's T-Dot comin' from the street block
Where these boys get lethal, slangin' rock like a slingshot
I know life is curtains, draw back, that's for certain
Buddy came to open up the blind and let the sun in, uh
Light bright like an icon, uh, uh, uh
Feel like a titan, uh, uh, uh
Can't hear the python, uh, uh, uh
Just like Verizon, uh, uh, uh
Full effect, I run this thing like the choppers get to poppin' off
I come, takin' aim, ain't no stoppin' when it's startin' now, uh
Young boy, he bad, uh
Like Michael with it, uh
Old boy, he bad, uh
My God is livin', uh
More sore when I swing
Morse code, can't explain
High cord, let it hang
High tour like the plane

Our city on the hill, I'm like the beacon
For the culture, watch me go up e'ry weekend
We in full effect, we in full effect, yeah (Oh yeah)
We in full effect, we in full effect, yeah (We her)

Get the ball, shoot the shot, hit the swish (Swish, swish)
And God with me, you know I don't ever miss (Miss, miss)
We in full effect, we in full effect, yeah (Yeah, yeah)
We in full effect, we in full effect, yeah
