

PRAY FOR ME

Tedashii

Please do not judge me, just pray for me
Looking back on my life, God done changed
Take a look at my past, how you gon' blame me?
Take a look at my past, how you gon' hold up wait
Can't even look back, gotta keep my face forward
Mama crying to the Lord, she the one praying for it

Looking back on my life, God done changed me
Looking back on my life, boy, you can't, boy, you can't judge me
I been washed up in the blood, I done seen some things that people tried to
sweep under the rug
Tried to come and steal my blessings, but they had to bring them back
They done took away my brother, cause he had to move them back
It's okay, I ain't told, I ain't snitched, I ain't foe, I just switched up t
he mode
Got it cracking in my area, cold, back on Rich Road
Where the streets was hot, that boy was cold
I was throwing out his name, back when they was throwing bows

Mama prayed so much, cause she wanna keep me up from that corner store
Wasn't raised with a silver spoon, but God came down, fed my soul
That's why when the hate coming my way, I just gotta let it go
That's why when I hear them telling they lies, just gotta let them know

Please do not judge me, just pray for me
Looking back on my life, God done changed
Take a look at my past, how you gon' blame me?
Take a look at my past, how you gon' hold a weight?
Can't even look back, gotta keep my face full
Mama crying to the Lord, she the one praying for
Looking back on my life, God done changed
Looking back on my life, boy, you can't

How you judge me and not praying?
I know people that be talking crazy every chance they can
So I just talk to God, he whisper it in my ear
Cause I got people on them blocks, I'm trying to help get off them Xans
Came from the D, trying to make the league
They was shooting dice, I was shooting threes
I told them wait for me, started doing things I shouldn't be
Living make-believe, trying to be in streets faithfully
Thank God that snatched me out, cause my mama really pray for me
I changed and said I'm killing demons, dawg, they said that's blasphemy
Same people saying Bible bleak, he's saying ones that laughed at me
Nah, I can talk the talk and walk the walk, that's how I'm living
I'm the voice for the churches and the church, that's why I'm different
Demi killer gang, we in this thing

Please do not judge me, just pray for me
Looking back on my life, God done changed me
Take a look at my past, how you gon' blame me?
Take a look at my past, how you gon'
Can't even look back, gotta keep my face full
Mama crying to the Lord, she the one praying for
Looking back on my life, God done changed me
Looking back on my life, boy, you can't
