

SAVE US

Tedashii

All this pain in my heart
I barely ever made it through another day
My whole world falls apart
I gotta take a knee every night, I pray
Lord, please save us
Show there's better on the way
Lord, please save us
Show there's better on the way
All these nightmares in my mind
I don't want to hear what they tryna say
When it's dark light still shine
So I take a knee every night, I pray
Lord, please save us
Show there's better on the way
Lord, please save us
Show there's better on the way

Lord, you know what I've been going through
That's why I run to You
It was hard for me to let him go
I gave him up to you
I was going through depression back then
Me and the family too
Losing Chase brought the darkness back in
I could barely move
And I never wish that my enemies lose a child
Ever been through that pain, you know that the rain never stop pouring down
Can't even send 'em to school no more
I can't look at the news no more
Put my faith over sight
But lately I really don't know what to do no more
All of my people in danger, what's the point of being famous?
If you can't help with a stranger, ask him for a little favor
All of my people gon' fly one day
That's why they get high some days
So as I lay down to sleep, I pray my soul to keep

All this pain in my heart
Barely ever made it through another day
My whole world falls apart
I gotta take a knee every night, I pray
Lord, please save us
Show there's better on the way
Lord, please save us
Show there's better on the way
All these nightmares in my mind
I don't want to hear what they tryna say
When it's dark light still shine
So I take a knee every night, I pray
Lord, please save us
Show there's better on the way
Lord, please save us
Show there's better on the way

Every day someone realizes they're not in control
All black Free Barabbas 'cause this world is cold
Grab your loved ones, hold 'em tight because you never know

Walk by faith 'cause sometimes I don't know which way to go
I know one day that the time gon' come
Rollies on the wrist for everyone
I'm tryna see something new, not a rerun
Up in the future, we hiding in Xenon
Up in the future, I'm hiding Elon
I know the king and his name isn't Leon
I need a friend and a shoulder to lean on, cool

All this pain in my heart
Barely even made it through another day
My whole world falls apart
Got to take a knee every night I pray
Lord, please save us
Show that it's better on the way
Lord, please save us
Show that it's better on the way
All these nightmares in my mind
I don't wanna hear what they tryna say
When it's dark, light still shines So I take a knee every night I pray
Lord, please save us
Show that it's better on the way
Lord, please save us
Show that it's better on the way
