

## Air Dry

Teddy Geiger

I kissed the rain, I waited up  
You're pouring dragons in my cup  
Done trying, I can't cope with it  
We'll get over it, yeah I'm over it  
I'm tired of night and I can't breathe  
You blew me off so easily  
It's different between you and me  
And I'm over it, you'll get over it

Chorus

I'm not the jealous type who doesn't sleep at night  
You got your karma, I know I've got mine  
And all my tears will air dry with just a little time, Air dry.

I heard you played behind my back  
Was I a fool to not react  
Lets go to tape and play it back  
I was out of it, I was under it  
Your little spells worked quietly  
Your good-byes left me wondering  
Now that I'm gone you contemplate  
If you're over me, well you used to be

I'm not the jealous type who doesn't sleep at night  
You got your karma, I know I've got mine  
And all my tears will air dry with just a little time  
You only wanted it once I was over it  
You go your way, I know I'll go mine  
And all my tears will air dry with just a little time

How was I supposed to know  
You never told me baby what you want  
I can't read your mind  
You never bothered to look inside of mine  
I used to wake up every morning  
And all I could do was think of you  
It was all a lie, it was all a lie
