

Never Enough

Teddy Geiger

Summers end is verified
When it rains it pours down
Put away the soft love
When it rains it pours down

Is it never enough?
Is it never enough?
It's never enough
It isn't ever enough

A renaissance of alien awareness is coming out right now
Like little stairs there symbols are everywhere
Ever adding up but

Is it never enough?
Is it never enough?
It's never enough
It isn't ever enough

In the back of my head there's something bothering me
There's a sign on my chest but it's out of my reach
Now and again and again I see whatever I am
But now it's out of my hands
I think it's out of my hands

Is it never enough?
It's never enough
Never enough
It's not ever enough
