

# I'm A Bus Driver

**Teddy Hyde**

I'm a bus driver in a town you've never been to  
I drive people you've never met and never will meet  
I drive to places you'll never go  
People get off and buy things you've never seen and will never own  
I have a dog of a breed you'll never discover  
I feed him food you've never heard of  
I park the bus behind a school I've never been to  
Filled with people I've never worked with  
Teaching things I never learned  
To students who will never know me  
Every night shows I've never see

But when I sleep the same dream every night  
The same dream that you've had your whole life  
That dream everyone knows  
That same life we all experience every night
