

# Don't Leave Me Out Along the Road

Teddy Pendergrass

Oh yes  
Don't leave me out along the road  
No time for sorry eyes, I apologize  
But please don't leave me on this lonely road  
Ten times you said you loved me, better than before  
You said your love would never change  
How could you ever think that I let you down when I've always been around  
I'm not your [?]

Now you can break all your promises and use me like a tool  
Do all you want me tell me I'm free  
I know the time will come then I can smile again  
But not until you say you're still my friend

Don't leave me out along the road  
Too scared to say goodbye, to make it on my own  
Don't leave me out along the road  
Oh oh, (don't leave me don't leave me)

Let's try to work it out it's all that we can do  
No need to put us on the line  
Just like a poet song when it's out of rhyme don't mean it can't be sung with love in mind

Now you can break all your promises and use me like a tool  
Do all you want me tell me I'm free  
I know the time will come then I can smile again  
But not until you say you're still my friend

Don't leave me out along the road  
You got me, you got me too scared for (Too scared to say goodbye, to make it on my own)  
Don't you leave me girl, no, no (Don't leave me out along the road)  
See I'm too scared baby, yes I am (Too scared to say goodbye, to make it on my own)  
Got me, got me baby
