

One of Us Fell In Love

Teddy Pendergrass

Baby, you

You had the best of me
You know it's true
I gave all I had to you
But now what's left of me
Is taking it back, ooh, so bad

Oh, one of us fell in love
But it takes two to do what lovers do
To make a fool of time
Only one of us fell in love the way we planned
We chose a love song and
We couldn't make it right

Baby, wait

Wait for the night to come
Then when it's late
Well, you better beware
(Wait) oh wait
Wait 'til, you meet someone and nobody's there
It's a lonely affair

Oh, one of us fell in love
But it takes two to do what lovers do
To make a fool of time
Only one of us fell in love but you were smart (yes)
You held onto your heart
While I was losing mine

They say once

You know once just ought to be enough
But when it's love
I guess that's all you need
But for me, for me once just might've been too much
Girl, when you feel the pain of love that never will end
Oh

Baby, one of us fell in love (one of us)
But it takes two to do what lovers do (takes two, yeah)
To make a fool of time
Only one of us fell in love the way we planned (one of us fell)
We chose a love song and (just couldn't do it)
We couldn't make it right (couldn't put it together)

Baby (no)

One of us fell in love (one of us fell)
But it takes two to do what lovers do (uh-huh, do what lovers do)
To make a fool of time
Only (hey, hey, yeah)
One of us fell in love but you were smart (one of us fell)
(See I held onto your heart) you held onto your heart
While I was losing mine

Baby (yeah, yeah)

One of us fell in love (one of us fell)
But it takes two
