

Only To You

Teddy Pendergrass

I can't even tell nobody, I'm pretending to myself
When it comes down to being faithful and true
I can only say those words to you
I wouldn't kid around with no one, no
Or attempt to lead them on
Tell them many things no matter who
I can only say those words to you
How many times it seems so easy, yea
Nobody got them out of me

Then can try, they can cry
Then can put me through changes but still
I would nooooot, no, no
I would not

Yes I've opened up to some degree
And some new ideas have come to me
But how I cherish love I never outgrew
I can only say those words to you, you

Yes I've opened up to some degree
And some new ideas have come to me
But how I cherish love I never outgrew
I can only say those words to you
Only you, only you, only you

Only you, only you
I can only say those words, only you
I say I love you it
I'm in love
To you, only you
I can only say those words, only you
Only you, you, only you
