

# Voodoo

Teddy Pendergrass

Girl I can't wait, to come home to you  
Can't concentrate on my job, cause I'm in the mood  
See lately I've had, a one track mind  
See its you, and you again  
Friends think I'm wasting my time  
And oh!  
I've always been that kind of man  
In control of my life  
But girl ever since, ever since you came around  
See I wanna take care of you  
And make you my wife

It must be that  
The voodoo that you do  
That keeps me loving you  
I gotta say  
I like it baby  
[x2]

See my friends, see they call me on the phone and say Ted (Teddy)  
Say let's go out, do you wanna play?  
But I find myself wanting, to spend all my time with you  
And I don't even care, what they're talking about  
And oh!  
Something strange has taken over me  
And baby! Baby! I really really like it, yeah  
See I've never felt, this way before  
Girl that's for sure  
And I don't need, I don't want no cure

It must be that  
The voodoo that you do  
That keeps me loving you (keeps me so in love)  
I gotta say, I like it baby...  
It must be that  
The voodoo that you do  
That keeps me loving you  
(Sometimes your love just wants to make me stay)  
I like it baby  
Wanna say oh...  
Come on and do to me what you did last night  
I like it baby, I love it baby  
Must be that (its gotta be)  
The voodoo (the voodoo)  
That you do (that you do)  
That keeps me (so in love)  
Loving you (in love with you girl)  
I gotta tell ya, I love it baby...  
Said I love it, I love it, I love it child
