

If You Ever Change Your Mind

Teddy Swims

Look into my eyes, you don't have to say a word
Don't have to say a word
I'm still coming to terms with finding a love that shatters my
world
More than I deserve

If you ever change your mind
Don't let me know, don't say goodbye
Just walk out the door, don't say it's over
Don't tell me lies
'Cause it's the only way I'll survive
If you ever change your mind

Oh, the stars, they all align
When your hand is holding mine
I love you
I love you

So if you ever change your mind
Don't let me know, don't say goodbye
Just walk out the door, don't say it's over
Don't tell me lies
'Cause it's the only way I'll survive
If you ever change your mind
