

# The Plan

Teddy Swims

Was that you last night?  
Blow up my dreams like dynamite  
When there's no light  
You are my field full of fireflies  
Eyes like the sun  
Think I might lose it if I stay too long  
Where are we goin'?  
That's where I belong

It's okay, ayy, ayy, yeah  
To lean in the feelings we don't understand  
It's okay, ayy, ayy, yeah  
To never love anyone in my life like you again  
That's the plan  
That's the plan

Just how I wanted  
When you came back from New Orleans  
Fresh off the [?]  
You threw your heart in my [?]  
When you're alone  
I'll be the lightning inside of your bones  
Long way from home  
Darling, I want you to know

It's okay, ayy, ayy, yeah  
To lean in the feelings we don't understand  
It's okay, ayy, ayy, yeah  
To never love anyone in my life like you again  
That's the plan  
That's the plan

To lean in the feelings we don't understand  
To never love anyone in my life like you again  
That's the plan  
That's the plan  
That's the plan
