

Your Kind of Crazy

Teddy Swims

My history would suggest you'd be
Just like the rest of my exes, but somehow, you're not
Something in the wind from the way we fight to the way we kiss
Tell me, what did you put in my cup?

Funny feelings
Funny feelings have a funny way of getting underneath your skin and swimmin'
When you're in 'em

Your kind of crazy
Best kind that I've ever had
Your kind of crazy
Smells like roses, your "red flags"
The mess you make me
Girl, it don't faze me
Girl, don't change a thing, leave it like that
Your kind of crazy
Best kind that I ever had

The way your body talkin' to me, girl, I speak it fluent
Know what you gon' put me through but still I got to do it
Oh, I
There ain't no changin' my mind
I think I like

Your kind of crazy
Best kind that I've ever had (Best kind that I've ever had)
Your kind of crazy
Smells like roses, your "red flags"
The mess you make me
Girl, it don't faze me
Girl, don't change a thing, leave it like that
Your kind of crazy
Best kind that I've ever had

That look you give
That smile you twist
You lunatic
But I love it
That look you give
That smile you twist
You lunatic
But I love it (Every, every, everything you do)

That look you give
That smile you twist
You lunatic
But I love it (Every, every, everything you do)
That look you give
That smile you twist
You lunatic
