

## All I See

Teddy Thompson

I miss you tonight  
and they call me your new friend  
i can't seem to speak my mind

the city's so real  
and people look through me  
and everyone knows my sign

And all that i see  
all that i see here  
is you

I'm wreckless out here  
but time has no meaning  
and i seem to last for days

but the time that i spend  
and the ones who are with me  
they don't pretend to stay

And all that i see  
all that i see here  
is you

and it's too late  
it's too late to try  
separation is so hard to fight  
all that i see here is you

[guitar solo]

So listen up now  
for the sake of my own life  
this one is for you
