

## So Easy

Teddy Thompson

There you sit with the TV on  
it could be work but it looks like fun  
you must be happy that i came home now  
now you've been practising your furrowed brow  
everybody gets along with everyone  
so easy  
everybody gets along with everyone  
in the way you dress  
it's taken absolutely from the best  
Brando Monty had some kind of style  
and you've been workin' on your west-coast smile  
everybody gets along with everyone  
so easy  
everybody gets along with everyone  
ooohhh  
[guitar solo]  
Now you're out there in the big spotlights  
was there something you forgot to hide  
stranded naked in the coolest wind  
on with nothing but your boyish grin  
everybody gets along with everyone  
so easy  
everybody gets along with everyone  
so easy  
everybody gets along with everyone  
so easy  
everybody gets along with everyone (two three four)  
so easy  
yeh  
so easy  
ooohhh so easy  
ooooh ohh
