

# The Next One

Teddy Thompson

There you are on my street  
Standing where we used to meet  
I look like I just woke up  
You look beautiful as ever

Oh why did you have to come back now  
I was just about to feel ok  
Ask me how I'm doing  
What's the perfect thing to say

Oh take me to the next one  
Fast Forward me to someone new  
Take me to the next one  
It's the best thing I can do  
To get me over you

Spring is here in New York  
Everybody's outside  
And I would rather run into any other  
body in this town

Leaving it the way we did  
Seems so open ended  
I can tell you that I'm happy  
If we're just pretending

Oh take me to the next one  
Fast Forward me to someone new  
Take me to the next one  
It's the best thing I can do  
To get me over you

How's it done, the great undo  
All we did, now I do

Oh take me to the next one  
Fast Forward me to someone new  
Take me to the next one  
It's the best thing I can do  
To get me over you

Oh take me to the next one  
Fast Forward me to someone new  
Take me to the next one  
It's the best thing I can do  
To get me over you
