

# All The Love

Tedeschi Trucks Band

All the love we've found  
All the love we let fall down  
All the love we've found  
All the love we let fall down  
All the love we've found  
All the love we let fall down  
Oh, down to the ground

All over the world, there's plenty of love around  
If you can find it, so find it  
Stop taking love for granted  
Time is running low and we must find our way

All the love we've found  
All the love we let fall down  
All the love we've found  
All the love we let fall down  
All the love we've found  
All the love we let fall down  
All the love we've found  
All the love we let fall down  
And down, down to the ground

All around the world, there's plenty of love  
If you can feel it, so feel it  
Stop taking love for granted  
Time is running low and we must find our way

All the love we've found  
All the love we let fall down  
All the love we've found  
All the love we let fall down  
All the love we've found  
All the love we let fall down  
All the love we've found  
All the love we let fall down  
And to the ground  
Oh, we let it fall down
