

# All The World

Tedeschi Trucks Band

So many times I lay here thinking  
We may never stand up and rise again  
Then I hear the voices singing  
Everything must burn before hope can live again

All the world is bleeding  
I can feel it  
And I've seen it  
But while our hearts are beating  
We can heal it  
If we mean it

So many places I have gone  
But the song remains the same  
So if we could please listen to what they say  
The walls could crumble and wash away

All the world is bleeding  
I can feel it  
Cause I've seen it  
But while our hearts are beating  
We can heal it  
When we mean it

All the world is bleeding  
I can feel it  
Cause I've seen it  
So while our hearts are beating  
We can heal it  
When we mean it

All the world is bleeding  
I can feel it  
Cause I've seen it  
So while our hearts are beating  
We can heal it  
If we mean it
