Take off (take off)
I'm in London, got my beat from London

Run up a check on them niggas, I got 'em bitter off that
They give me nothing but they still be feeling that I should be giving them
that

When I come back off the road I take a victory lap
Just can't do no dumb shit with none of these fuck niggas, ain't get that vi
ctory back

Turn up

Trap house with the space heater, I was just sitting in that
Big mac with 50 shots, you playing, I'm giving you that
I ain't got a way to it, y'all side, I got in the building with that
Ride me, and I wanna see blood, there ain't no giving it back
Niggas watched me run around broke
It ain't no feeling like that
Press 'em up off a 3 minute rap
JB, how they feel about that? (on the first day out)
Girl I wanna fuck you in this Wraith
Tell me how you feel about that (how you feel about that)
After this, I'm ignoring your texts
Bitch, you got a nigga for that

My stomach was touching my back (it was)
I was in my feelings 'bout that (I was)
Remember my freedom got snatched? (it did)
I was in my feelings 'bout that (I was)
But I ain't get hit with no net (I didn't)
They in their feelings 'bout that (they is)
These niggas got overlapped (they did)
They in their feelings 'bout that (they is)

But I got a Cali' connect
In case I don't make it in rap
I gotta chase this connect
Now you gon' run out of 'a
I got a Miami connect
My Haitian will throw you a bag
I got a Atlanta connect
They gon' pull up with them straps

Shout-out to my nigga Yachty, he put the bear on the boat (one-hunnid)
That bitch say she got a nigga, I can take care of you both (for real)
My people say, and I quote, "Boy, you will never get on" (fuck 'em)
Now all their faces so long, my free CD damn near went gold (went gold)
Tell the promoter just come with a dub, and I'ma come pack out the place (it
's lit)
Don't talk 'bout the business, call up beforehand, my nigga, they gon' get y
ou straight
And you gotta say half while we on the phone, or we can't lock in today
You try to take up for that nigga's beef, you gon' get dropped in his place
(you gon' get killed)

And I got a plug in Virginia
In-case I don't make it with lyrics
Give a fuck if this your city
I'll put niggas on spirit

When they get hear it, you wick it
I just met Gotti in Memphis
I only fuck with the streets
Can't relate to these industry niggas
