

# God First

Tee Grizzley

Half a million on my neck, that's here nor there  
Niggas that been rappin' look at me like that shit unfair  
Let that envy turn to action, boy I wouldn't dare  
We ain't aiming at your legs, we gon' hit upstairs  
You ain't tryna get no money, man this shit a mess  
Seem like all these niggas care about is gettin' fresh  
Bed on the jet, we ain't gotta lay no seat back  
Nigga beat my ass, pop him, I don't want no rematch, no cap  
Brodie, bring me a magnum, them niggas straight pussy  
Gold Louis' on my feet, look like K bullets  
Lil' niggas better watch what y'all say to me  
I'll put them apes on niggas heads like some Bape hoodies  
I'm that same street nigga that used to swap hands  
I ain't a better person, bitch I still want my opps dead  
And I ain't gon' lie, I hit some bitches that was not lit  
If she a 6 and she was thick, she probably got hit  
Niggas say they run the city, got it fucked up  
Nigga, sit your ass down, shut the fuck up  
Go get your respect up, I'm ballin', tell them check up  
You don't know how a M look, I'll shoot you from your neck up  
We in back to back 488's, them all coupes  
Gave my young nigga a brick, told him that's all you  
We can't all rap, y'all gotta ball too  
You know this fresh up out the trap if ain't all blues  
I'm a young nigga from the slums in a Bentayga  
Under 26, richer than the city Mayor  
Niggas want a plate but ain't wanna help set the table  
All these acres, nigga I ain't nowhere near the neighbors  
And I ain't had no big features, or no big favors  
And if I did they ain't post it, look at how they played us  
I can see it in they face, them niggas feel threatened  
Since God first and family third, you know that money second  
In interviews, they like "Tee, why your name Grizzley?"  
I ain't give myself that title, I got that in prison  
I was overly aggressive, I was easily offended  
When I ran up on niggas, they left the scene barely living  
Niggas say I fell off, I got some back ends say different  
Could of bought a Ferrari how much I spent just on Amiri  
Only human that scare me is that nigga in the mirror  
He so tall and hairy but still could fuck the bitch you married nigga  
Only thoroughbred niggas next to me  
Shout out to them niggas sleeping on me, rest in peace  
Man down, I ain't send no shooter, that was me  
Most underrated, just give it time, they gon' see  
I'm puttin' God first, cause he came to my rescue  
I put my family third, you know that money second  
Because when I was broke, without no money, stressin'  
Nobody felt that shit but me, nigga I made it happen  
I'm puttin' God first, cause he came to the rescue  
I put my family third, I put that money second  
Cause back when I was broke, without no money, stressin'  
Nobody felt that shit but me, nigga I made it happen
