

## They Know

TEEFLII

Annie everybody knows  
Your body, your body  
Roll it up, light it  
Smoke it, Annie exhale  
Let me pull out on your ponytail  
Aw yeah, all them other Annies gon' lie  
But Annie don't be surprised  
Don't change your mind Annie  
Excuse some of mine, all of mine [?] girl  
But anyone we got they want

We ain't humping we fucking  
I'm giving you the D just how you want it  
We getting loaded all damn night  
Girl you love this thug shit

Just keep giving me the best that you got  
And you keep giving me the best that you got  
Girl, cause they gon' hate on you and me  
Because they wanna see us fall apart  
You can't be believing their lies  
Cause you're just the Annie that I like

And they know, they know, they know, they know  
They know, they know, they know, they know  
They know, they know, they know, they know  
They know, they know, they know, they know

Get it Annie, pop a molly  
Turn me up, girl do it right there  
You got me, you got me, Annie  
You got me, thinking about taking you down  
Girl I trying to see how you gon' ride me  
If you don't know then shame on you  
We could do it in the shower  
Back and forth we going for hours  
Haters they don't like what we do  
That's why we do what we do

Girl do it right there  
You got me, you got me, Annie  
You got me  
If you don't know then...
