

Undressing You

TEEFLII

I want you wet yeah, your body laying next to me
You was tryna tease me, until I met you, wanna please me
Girl cut your phone off, fuck a text message
You don't wanna be interrupted

Leave the lights on, I'm tryna see this shit
The dark is only gon' fuck my vision

So let's start it off right by you filling my cup with some liquor
I'm bout to put it into you, fuckin' with them weak niggas
You gon' forget about everything while I'm undressing you
You do everything I say while I'm undressing you
Girl take it off, girl take it off
Girl take it off, girl take it off

You'll see you ready
I wanna see you handle it
I done popped a molly, now a nigga mind racing
I know you like it fast, but I'm gon' give it to you slow

Leave the lights on, I'm tryna see this shit
The dark is only gonna fuck my vision

So let's start it off right by you filling my cup with some liquor
I'm bout to put it into you, fuckin' with them weak niggas
You gon' forget about everything while I'm undressing you
You do everything I say while I'm undressing you
Girl take it off, girl take it off
Girl take it off, girl take it off

Take it all off, don't be shy about it
You know I'm about it, you know 'flii about it
All I wanna know is if I give you good dick
Would you tell you girlfriends or would you lie about it
Tell me the truth, tell me the real bae
One nigga just wanna know how you feel bae
I know you comin' from nothin' tryna get somethin'
But have you ever held discussions with niggas with a mill bae?
I know you thinking I love ya, but we just fuckin'
And fuck it, a nigga thuggin', had to let you know the deal bae
You know that pussy picture perfect and a nigga tryna murk it
Wait a minute, strike a pose, be still bae

So let's start it off right by you filling my cup with some liquor
I'm bout to put it into you, fuckin' with them weak niggas
You gon' forget about everything while I'm undressing you
You do everything I say while I'm undressing you
Girl take it off, girl take it off
Girl take it off, girl take it off

You gotta give him pussy on volume 4
Matter off fact, you gotta give me and Flii pussy, you owe us that
You owe us that
Oh, girl take it off, oh, girl take it off
Oh, girl take it off, oh, girl take it off
