

DEEPVOICE

TeejayX6

I'm in New York doing business but I'm from Detroit
Juug can't tell it's me, cause I'm talking with my deep voice
Can't even breathe because I'm smoking out the quarter pound
You taxing too much for that weed. Bring the price down

Calling my plug trying to see if it's some pints around
He said it's not so I'm about to call this other nigga
When I called his phone he like "who the fuck is this?"
He pulled out some bullshit, I'm like man "what the fuck is this?"
Couldn't believe how niggas did me when I went broke
Laughing and talking about me like I ain't look out for them before
But I'm the same nigga who just put money in your hand
Put some money in your pocket now you talking on your mans
Niggas no longer dissing, cause they in the grave
Did a lot of shit, ain't get no credit, and I still ain't get paid
You went to college graduated and you still ain't get paid
That's the reason that I dropped out, they trying to brainwash us
Popped a xan and went to sleep, I brainwashed myself
Popped a nigga in an outfit, I got to wash my clothes
I'm high as hell on the freeway, I got to watch the road
Adding all this money to my safe, I'm watching it grow

I'm in New York doing business but I'm from Detroit
Juug can't tell it's me, cause I'm talking with my deep voice
Can't even breathe because I'm smoking out the quarter pound
You taxing too much for that weed, bring the price down

Took a L and switched teams, you like Demar DeRozan
How you was a star and fell off, you like Derrick Rose
Stripped the fuck out of a nigga and made him take off his clothes
I damn near thought it was winter time the way this nigga froze
I damn near thought we was in the gym the way this nigga flipped
The way my gun kicked I thought it was Liu Kang
Man I ain't dealing with this bitch, she having mood swings
Y'all two retarded ass niggas, Thing 1 and Thing 2
I'm about to leave this pussy nigga rolled like some sushi
Just caught this bum ass nigga working at Salvation Army
Sliding in the opps, we bout to bring a whole army
Hellnaw you ain't just get no weed, that was parsley
Little dumb nigga tried to use a leaf off a tree
That's when he noticed that he fucked up, he was like "you kidding me ?"
Only me and my niggas, you can't get inside the circle
Oh there's money on your head, I'ma send some niggas to hurt you
They think it's regular candy, smuggled pills in a Hershey
Somebody get this little bitch some water cause she thirsty
You don't never see me chase no hoes, I'm dehydrated
You can put some food on a nigga plate and he still won't eat it
