

I was always late for school for the first period
This shit piling up, I can make a money pyramid
I got my stick out in public like I'm paralyzed
I'm high as hell right now, you can't catch this flight
It's dark as hell outside but he see the light
Cause I put that bitch to his face and I left him blind
He had thoughts of robbing me, but I left his mind
Now he's somewhere in heaven trying to press rewind

I should've been a skateboarder cause I'm always grinding
I'm rolling big ass buds, I got to use a grinder
How can I really get rich? I just sit and wonder
I'ma host his funeral myself and bury him under

I'm a star the bitch walked up to me and made a wish
Without me niggas can't eat cause I make the dishes
I got \$25, 000 on me, nigga Merry Christmas
Hit a nigga with green and red bullets told him Merry Christmas
Got my present early, fucked my bitch under the mistletoe
He tried to run off now the nigga missing a toe
You don't understand that bar, you missing the point
Up my strap on a nigga, I don't miss when I point
I want smoke with a nigga like we matching a joint
Made a mistake, caught a body, now I'm stuck in the joint

Been moving pounds all day, I'm straining my joints
The drugs got me in my feelings, now I'm dissapointed
You ain't ready to be a swiper Hard Difficulty
I just need the Fraud Bible, fuck a dictionary
We got all kinds of guns, we the military
Fake ID, this is not from the Secretary of State

I was always late for school for the first period
This shit piling up, I can make a money pyramid
I got my stick out in public like I'm paralyzed
I'm high as hell right now, you can't catch this flight
It's dark as hell outside but he see the light
Cause I put that bitch to his face and I left him blind
He had thoughts of robbing me, but I left his mind
Now he's somewhere in heaven trying to press rewind
