If you want to hit for big shit, put in a hundred more
Go on to your site and it's gon' tell you which address to load
Then you type that same address on the Bitcoin machine
If you put the right address, it should pop up green
Then from there, you done with that Bitcoin machine
Hop in your whip, but you gotta play it low-key
'Cause remember, bro, you just loaded up on camera
Go to Starbucks, but make sure you brung your computer
Go onto the Internet and log into your site
Wait ten minutes and the money should be on your account
Depending on what site you use, click CVV
Enter in one of your BINs and scroll down the site
If you tryna get active, then buy a piece tonight
Don't be stupid and buy a lil' five dollar number
'Cause I know you tryna be flexin' on niggas by the summer
I'm 'bout to give y'all a free method, but don't burn it out

So I advise y'all niggas just to go ahead
Add a fire piece on that phone that you just made with Zelle
