

## Swipe Story 2

TeejayX6

You have to use Bitcoin  
It's basically money to hide your identity  
Couple thousand dollars in one day  
All from doing nothing  
Everything out here is about money  
C'mon

Slides, dumps, punches, and pins (All that)  
Hit the road with gift cards and come back with ten  
I'm on ICQ with swipers going bin for bin  
Make twenty my first punch trip, I think it's time to go again  
Had to pay a worker to go and swipe this shit 'cause I ain't go  
in' in  
She came back with the items the first time, I made her go back  
in  
Got my computer in the whip just in case a card decline  
Got so many different bins to use, I can't even decide  
Hit the road in an Uber, pay eight-hundred for a ride  
I never got declined, my pieces go through every time  
Every time I'm at Verizon, I get nervous when I slide  
Just got an iPhone X Max and some Apple AirPods (Thank you)  
Plus I got some Macbooks and a couple iPads  
Slid my debit card and she put everything in the bag for me  
I asked her, do I get a receipt with that? She like, "Yes, hone  
y"  
Took all them items to my plug, he paid me all my money (Approv  
ed)

That's what I do  
Wake up in the morning, go load up  
Send the money to where it gotta be sent to  
And guess what? Money time  
It's that simple  
They learning about the game from listening to the music  
That's out right now, and they  
Catching on, everybody's onto it

You can learn how to do fraud, just listen to my music  
The feds tryna lock me up, they say that I'm a bad influence (W  
hat the fuck?)  
But how is that if I teach niggas how to slide and punch (How?)  
If you too scared to go inside a store then don't buy no dumps  
(Get the fuck on)  
If a piece costs five dollars, than don't buy that punch (Don't  
buy it)  
'Cause if you try to buy somethin', it's gon' decline so quick  
And you gon' be mad as fuck, regrettin' that you bought that sh  
it

Then you gon' be thinkin' like, "Damn, why did I try this shit?"  
" (What the fuck?)
