

Creeped up on a nigga from behind, caught him by surprise
Old ass piece from FE shop went through for Gucci Slides
Got lucky on the app and got a bunch of free Uber rides
Risk your life or being broke forever, nigga you decide
Thought his mans look out on the fire piece, and he still declined
Loaded my last 100 on the coin, and I still declined
Still wondering why my shit ain't go through, I thought I had some fire
Four gram wood of exotic, somebody pass the lighter

Thought this site scammed me but they told me that it took a minute
Hitting this thick bitch from the back, I bust in like two minutes
Hitting him in the head with my strap, he died in like two minutes
Doctor said he died from unrecoverable conditions
Lounging in the bank, got me looking all suspicious
Big mac 10, on the front is a suppressor
Dirty money on the nightstand, strap in the dresser
Niggas be bitches on the low, they need some bras and some panties
Took her to the Marriott, took off her bras and panties
Draco in my backpack, 10, 000 in my fanny-pack
SRT flying down your street, it's Fast and Furious
Is you really getting money or not? Boy I'm curious

Rocked this nigga bells, have his head christmac caroling
Pull up to the spot, we got weed, percs, and heroin
Nike headband, he must think he Richard Hamilton
Bullet hole, and the blood leaking out his abdomen
Date with a rich bitch, so I went clean and elegant
He think he invincible, this bitch will kill and elephant
They looking at forensics so I can't leave my fingertips
Do some dirty work, and then cut off my fingertips
9 dollars and 77 cents is what he save from tips
Gave myself a bullet wound, where the fuck is the first aid kit?
Scared to talk to this nigga, I think he a Federal Agent
Looked this nigga up and found him through the Whitepages
Can't judge me by my cover, open up and read the pages
Can't do no fraud because they know me by my face
