(DJ on the beat, so it's a banger)

Spent ten thousand dollars on my drip, we don't look the same
I'm not the one to blame, niggas broke, should be ashamed
Credit line for seven thousand, got approved the next day
Bring me a BOA, Wells Fargo, or a Chase
Send somebody in the bank, he walked out with everything
When niggas ain't got shit else to say, they make up anything
Cash myself out through Venmo, it was a piece of cake
Got a thirty-thousand-dollar watch on and still came in late

Every time I talk about the scams, niggas can't relate
Like how I just loaded two thousand on my blockchain
Niggas still got my old methods, they ain't update
Your bitch look like an iPhone 6, you need to upgrade
I'm at Walmart gettin' gift cards, my cousin still doin' her part
When it say "Approved", I knew I hit the ball out the park
I'ma need two shopping carts, 'cause I got a lot of items
I'ma rip this store apart if my card keep declining
You ain't got a bank account, send my info, you can chime it
Smokin' on some shit, it knocked me out like a defensive lineman
I'm really gettin' the sense that you a bitch how you be dick ridin'
Invest in Bitcoin while you can 'cause this shit ridin'

Spent ten thousand dollars on my drip, we don't look the same
I'm not the one to blame, niggas broke, should be ashamed
Credit line for seven thousand, got approved the next day
Bring me a BOA, Wells Fargo, or a Chase

Bought a new iPhone just to make a jugg page
Get a fire promo, make ten thousand in two days
They gon' hit your DM, like, "Nigga, what the price is?"
Respond to the grownups, but block all the little kids
Sell an iPhone for eight hundred, they gon' place a bid
And you can sell designer clothes, womens, kids, and men
If you talk to your jugg right, he might order again
Another way to make money, I hope you had out your pad and pen
