Hit Me Where I Live

Teena Marie

On the Venus rocks
Yeah, huh
Just me, the master
And my box
Blues and sounds
Decimals high
I fly above this hood
That wears me

Venus, Harlem baby So you could shake it So you could shake it

I know a guy his name is Doug He plays the bottom Cuts the rug I love to hug that jitterbug

He swam around in circles till He found the inside of my web And now no secret's left to tell

He said James
What the people say
Penny for your thoughts
She came from Velo
That's below the farm

She drive across town
And she'd teach me how to give
She be in deep places
And it hit me where I live

Hit me where I live I tell ya somethin' That I love my rhythm mixed up with my blues

Hit me where I live
I'm tryin' to tell ya
That we're joined here at the hip and side
Like glue
Ooh

Chocolate sister, name is mick So artistic with her tricks She holds my notes Sings all my licks

Movies, yardbird We be fed Collard greens and sweet cornbread Lets hide the brooms under the bed

He said James
What the people say
Penny for your thoughts

That's Brooklyn bubblegum Hey bring the sauce

He came from chi town
And he mixed my Shhh real good
He be in deep places
And it hit me where it should

Hit me where I live I tell ya somethin' That I love my rhythm mixed up with my blues

Hit me where I live
I'm tryin' to tell ya
That we're joined here at the hip and side
Like glue

Take me to the bridge (James)
It's just over the ridge
If you don't ain't that a bitch
Cause I need to scratch this itch
Now you choked up on this crunk
I ain't never been no punk
Just like two skunks in a trunk
Gonna drive you off into some funk

Yeah

I'm sendin' this one out to chocolate city And all its vanilla suburbs
We do be workin' music all night long
We do be workin'
We do be workin' music all night long
So you can shake it

Hit me where I live I'll tell you su'in That I love my rhythm Mixed up with my blues

Hit me where I live
I'm trying to tell you
That we're joined here at the hip
and side like glue

James what the people say
Penny for your thoughts
I be from Venus that's down by the rocks
I been around the way
A legend in my hood
I been in deep places
And I know that it's all good

We do be workin' music all night long We do be workin' We do be workin' music all night long So you can shake it

Yo Mick, remember that time we went to see tower of power You had on that three piece suit And a sprinkler's runnin' across your face

Girl, I loved you then
I love ya now
Big ups to you
You'll always be my boo
Flyest afro on the westside
