Teena Marie

Please don't tear me with your sugar pops  
Look at you confection surely drops  
Under state and sexy with your moves  
You want this and baby I want those

Nosey neighbors all up in our business  
Try to figure just how ill it is  
Watch you sorbin I can't keep my cool  
Bees got honey, baby I got you

Sweet baby you're a tease  
You're about to give me some cavities  
Please my boy you drive your girl insane  
Ye you know you like a sugar cake  
So sexy, on the ring  
You'll never know how just good it feels  
Talking smack you really are the truth  
You give me a sweet tooth

I got a sweet tooth  
In it with the taste I'm gonna chase you  
I got a sweet tooth  
In it with the taste I'll take the bait too  
I got a sweet tooth  
In it with the taste I'm gonna chase you  
I got a sweet tooth  
In it with the taste I'll take the bait too

Like a child in the candy store  
So sick with it, I will need some more  
What you got you want my teeth a ride  
I can't front you know my sweet spot

Now or later I'll take mine now  
It's alright just throw your girl a towel  
Secrets seen all so they say  
Bright sugar baby I'll take mine that way

Sweet baby you're a tease  
You're about to give me some cavities  
Please my boy you drive your girl insane  
Ye you know you like a sugar cake

Talking smack you really are the truth  
You give me a sweet tooth

Sweet like honey baby our ice tea

Every time that you make love to me  
Bees got honey baby I've got you  
Messing with you got me a sweet tooth

Sugar daddy smooth, skin like butter scotch  
Come one Talibu can I get a taste of you  
I watch your every move  
It's looking like you can be the Wanka to my factory  
Take complete control of me  
Some say you no good, rotten to the pore  
That you'll only give the peace you get me running back for more  
But I'm a fan of risk addicted to adrenaline  
So take me on a trip and break me off a kiss

So sexy, on the ring  
You'll never know how just good it feels  
Talking smack you really are the truth  
You give me a sweet tooth

Sweet like honey baby our ice tea  
Every time that you make love to me  
Bees got honey baby I've got you  
Messing with you got me a sweet tooth

Perfection surely drips from your lips  
I need a taste, just a little taste  
'Cause you're sweetness is my weakness
