

# The Sugar Shack

Teena Marie

Into the cave where lust and love became one  
Where the round wound and the black bottom quiver  
Where the ivory gets tickles by cool black hands  
We create dance and melody  
Resounding  
Unpretentious spirit  
Oh that we are the leaders of tomorrow  
At a quarter past eleven they'll come running  
Caged but ever free  
To the sound of the drum and the runes on the wall  
We remember our heroes ex-per-ession  
Sassy  
Lester  
Billie  
Satch and the Duke  
Yes Lord, this is the place to be

In the eleventh hour baby  
When the moon is high  
Sugar when my passion starts to flow  
I got a fantasy, it's for you  
And I know a real hot spot  
I can take you anywhere you want to go  
I know a place down by the tracks  
Where they got a little jazz band  
It's such a sexy situation  
We'll bust a bottle of Cristal  
Then just wait to see what happens  
Won't you come with me  
You can meet me over at the Sugar Shack  
Quarter past eleven, hurry baby  
You can meet me over at the Sugar Shack  
I got your sugar, your sweetness, your lovin' that's my weakness  
Do you like it like this  
I'm down for whatever turns you on  
I got a fellin' deep inside me  
That we like it similar  
And as they say in French voulez-vous right there  
I know a place down by the tracks  
Where they got a little jazz band  
It's such a sexy situation  
We'll bust a bottle of Cristal  
Then just wait to see what happens  
Won't you come with me  
You can meet me over at the Sugar Shack  
Quarter past eleven, hurry baby  
You can meet me over at the Sugar Shack  
I got your sugar, your sweetness, your lovin' that's my weakness  
Flashback, it was a real hot night  
There was a love explosion, just like dynamite  
You gave me sugar kisses, put them everywhere  
Dishin' it out, you whipped it up I swear  
In the eleventh hour when the moon was shining  
Shining on my eyes and I was high signing  
Come on, come on, won't you sweet swet back You can meet me over at the Sugar Shack  
Ooh sugar, sugar, sugar

I walked into the room, a hush fell on the whole place  
Drop dead fine just a diva with a purpose  
I slide to the right, everybody follows suit  
Serious times such a sexy situation
