

Afraid Of The Dark

Teenage Bottlerocket

I've seen what's lurking there
And baby, I'm not scared
I know that I am brave

They try to make us drown
But we're not going down
We live another day

We've been to hell, and still
Our hearts cannot be killed
We're keeping our heads high

So if you're feeling scared
Remember what we shared
The light in you shines bright

I'm not afraid of the dark
Afraid of the dark
Baby, I'm not afraid of the dark
Afraid of the dark
I'm not afraid of the dark
Afraid of the dark
Baby, I'm not afraid of the dark
Afraid of the dark

I'm not afraid of the dark
I'm not afraid of the dark, afraid of the dark
I'm not afraid of the dark
Baby, I'm not afraid of the dark, afraid of the dark
I'm not afraid of the dark
I'm not afraid of the dark, afraid of the dark
I'm not afraid of the dark
Baby, I'm not afraid of the dark, afraid of the dark
I'm not afraid of the dark
