

# Everything to Me

Teenage Bottlerocket

I'll take you with me everywhere I go  
From Edmonton down to Mexico  
Let you know it's cool to follow your dreams  
Because, kid, you mean everything to me  
We're gonna ride our bikes or write a song  
And everybody here can sing along  
You saved my life and you're cooler than me  
None of my friends would disagree yeah

I'll kill your goldfish if you don't brush your teeth  
My love for you is deeper than a cavity  
You can sleep with both the dogs at night  
We can look for shooting stars and satellites  
Let's go to the lake and fish all day  
We'll use a Panther Martin or a Renegade  
I'll try not to laugh when you start to cry  
I'm 40 years old you're in Junior High

I'll never turn my back to you  
I'll support most everything you do  
I'll yell till you get your homework done  
I'll keep an eye out when you're playing with your pellet gun  
I'm not gonna let you have a phone  
I'll show you Minor Threat, Talking Heads, and Methadones  
I'll try to be as patient as I can be  
Because, kid, you mean everything to me

I'll never turn my back to you  
I'll support most everything you do  
I'll yell till you get your homework done  
I'll keep an eye out when you're playing with your pellet gun  
I'm not gonna let you have a phone  
I'll show you Minor Threat, Talking Heads, and Methadones  
I'll try to be as patient as I can be  
Because, kid, you mean everything to me

You mean everything to me  
You mean everything to me  
You mean everything to me  
You mean everything to me

You mean everything to me  
You mean everything to me  
You mean everything to me  
You mean everything to me

You mean everything to me  
You mean everything to me  
You mean everything to me  
You mean everything to me
