

## First Time

Teenage Bottlerocket

I'm falling apart with a broken heart for the first time  
I'm starting to doubt what this feeling's about  
For the first time  
I stare at the wall, I'm beginning to fall  
For the first time  
Asleep on the floor  
Don't go out anymore  
For the first time  
I'm spinning out of control  
With nowhere left to go  
For the first time I can't seem to figure it out  
For the first time I can't hear you  
For the first time I'm not near you  
And I'm not going to live that life anymore  
For the First time  
For the first time  
I'm falling apart with a broken heart for the first time  
I'm starting to doubt what this feeling's about  
For the first time  
I stare at the wall, I'm beginning to fall  
For the first time  
Asleep on the floor  
Don't go out anymore  
For the first time  
I'm spinning out of control  
With nowhere left to go  
For the first time I can't seem to figure it out  
For the first time I cant hear you  
For the first time I'm not near you  
A loneliness I've never felt before  
For the first time I can't see you  
For the first time I can't be you  
And I'm not going to live that life anymore  
For the first time  
For the first time
