

Forbidden Planet

Teenage Bottlerocket

They tried to warn us we did it anyway
No one can save us our time has come to pay
Destroying anything that's standing in its way
Nothing can stop it won't see another day
With communications down
No one will hear our cries
On this forbidden planet is where we'll die

They tried to warn us we did it anyway
No one can save us our time has come to pay
Destroying anything that's standing in its way
No one can stop it won't see another day
With communications down
No one will hear our cries
On this forbidden planet is where we'll die
With communications down
No one will hear our cries
On this forbidden planet is where we'll die

It's where we'll die
We did it to ourselves
