

I'll Kill You Tomorrow

Teenage Bottlerocket

I'm gonna get even with you tomorrow
I'll put it off another day
I'm gonna break your legs tomorrow
I'm gonna break my brain today

I'm gonna get even with you tomorrow
I'll put it off another day
I'm gonna break your legs tomorrow
I'm gonna break my brain today

In a night I might calm down
And forget about you completely
In a night I'll probably move on
Right now it's totally worth it
But I'll wait until tomorrow
Another day and you'll be gone

I'm gonna murder you tomorrow
I need to wait another day
Voy a matarte mañana
La familia lo es toda

In a night I might calm down
And forget about you completely
In a night I'll probably move on
Right now it's totally worth it
But I'll wait until tomorrow
Another day and you'll be gone
