

My Very Best

Teenage Bottlerocket

One step closer to dying
One step further from you
Pessimistic but trying
It's all I really can do

I know it sucks to be the one
On the receiving end of this
But when it comes to holding on
To something good, I'm such a mess
It's every single time
I try to do my very best
It always ends in misery and bitterness

I'm pathetic and hurting
One thing I'm dealing with
When a future's uncertain
The worse it's what I predict

I know it sucks to be the one
On the receiving end of this
But when it comes to holding on
To something good, I'm such a mess
It's every single time
I try to do my very best
It always ends in misery and bitterness
