

Opportunity

Teenage Bottlerocket

I can't help but feeling disconnected
This time I really can't get up
I have the feeling someone's next to me
Even though I'm walking by myself
This time I really can't get up

I can't help but feeling disconnected
This time I'm really going nowhere
I have the feeling someone's next to me
Even though I'm walking by myself
This time I'm really going nowhere

And I laughed at every opportunity
And I feel that everything's gone black
Never had more than a minute
To adjust myself
Now I know I'm never going back

This town did a job on me
Did a job on me
Did a job on me now
This town did a job on me
Did a job on me
Did a job on me now

I can't help but feeling disconnected
This time I'm really going nowhere
I have the feeling someone's next to me
Even though I'm walking by myself
This time I'm really going nowhere

And I laughed at every opportunity
And I feel that everything's gone black
Never had more than a minute
To adjust myself
Now I know I'm never going back

This town did a job on me
Did a job on me
Did a job on me now (4x)
