

# Robocop Is A Halfbreed Sellout

Teenage Bottlerocket

What atrocity is this?  
A human being has been rebuilt  
With all the parts and computer for a brain  
How dare they take this way too far  
With the poison they call flesh  
Was a fighting for the concept of in vain

He had a chance to make things right  
And put our consciences at ease  
But then he started helping humans  
Now he's part of the disease!

Robocop is a halfbreed sellout  
Not one of us, but one of them  
Robocop is a halfbreed sellout  
He's on our shitlist once again

He tried his best to love  
A human flaw  
This couldn't mean that he doesn't support the cause  
He could be dangerous, he could go after us  
If you weren't so dramatic  
You'd realize you're part of the human flaw

He had a chance to make things right  
And put our consciences at ease  
But then he started helping humans  
Now he's part of the disease!

Robocop is a halfbreed sellout  
Not one of us, but one of them  
Robocop is a halfbreed sellout  
He's on our shitlist once again

Robocop is a halfbreed sellout  
Not one of us, but one of them  
Robocop is a halfbreed sellout  
He's on our shitlist once again
