

Connected To Life

Teenage Fanclub

Born into light, born into her mystery
The passage of time pulling you closer to me

Once in a while I can see you
Looking so young in your eyes
My darling I just want to see you
Connected to life

Shaken from sleep, lost in tempestuous night
Alone in the end, further and fading from light

Once in a while I do see you
Living so bold and so bright
My darling I just want to see you
Connected to life

Once in a while I do see you
Living so bold and so bright
My darling I just want to see you
Connected to life

I will not deceive you
I only want to please you
I hope I'll never see you
Disappear into shadows, into night
Disappear into shadows, into night
Disappear into shadows, into night
