

Cul De Sac

Teenage Fanclub

Should I just keep rolling
All over this town
Among the buildings
And amid the sound
Feels like I've been wading
This whole season through
Motivation is fading too

Got no expectation
No shadow to cast
No reputation's prepared to last
Free to just keep going
And wander on through
The sleeping streets
In the morning dew

And it's no good
Feels like I've been waiting
This whole season through
Compensation is overdue
And it's no good
